

## Faith Church Groups

**Purpose:** Having different groups is one method Faith Church will use to develop people who love, grow, share, and praise.

**Mission:** God made us to be in a relationship with Him and with each other. We want everyone in a group at Faith to experience and strengthen these relationships.

**Description:** Groups are specific gatherings of the people of Faith Church. These groups will have leaders trained and approved by Session, teaching materials that have been approved, and will be promoted through church-wide communications.

**Definition:** A group is classified as an officially endorsed meeting of people who gather based on a set schedule, with an approved leader, and around a specific purpose. We have classified groups into three types. Groups will contain each mission value but are organized based on their primary appeal to those new to the church.

- ◆ **Study:** The group's primary focus is on a curriculum or study. Teaching can be accomplished through various means, including single/team teaching, group discussion, video series, etc. People would be drawn to this group primarily for the *topic*.
- ◆ **Missional:** The group focuses on a joint life activity or a common bond between members. Members encourage and support one another in their specific phases of life. People would be drawn to this group primarily for the *people*.
- ◆ **Care:** The group primarily focuses on an activity based on shared spiritual, physical, or emotional needs. Members provide support and encouragement for each other as family members in Christ. People would be drawn to this group primarily for the *activity*.

**Current Groups (please click on the leader's name to contact via email about the group):**
